WiZ Functionalities

Smart lighting functionalities easy to set up

Enjoy the benefits of smart features instantly, just by connecting your WiZ light to your Wi-Fi network. Control lights easily when you're away from home and scheduling lights to go on and off automatically. No need to install additional hardware such as hub or gateway!

Matter Certified

This product is Matter certified. You can set it up and control it with your preferred smart home platform and make it work seamlessly with other Matter Certified devices.

SAY THE MAGIC WORD

Need to illuminate the kitchen while you're carrying in the groceries, but don't have a free hand? Use your smart speaker to turn your WiZ lights on with your voice.

Activate lights with motion without having sensors

WiZ's SpaceSense technology turns your lights into motion sensors. With a minimum of two WiZ lights in a room, you can activate the SpaceSense feature in the WiZ app and have lights turn on and off automatically with motion detection.

Set up lights to follow your own schedule

Automate your smart lights to follow your daily or weekly routines. Schedule your lights to turn on in the morning or before you arrive home, and to keep them off to save energy, when they are not necessary.

Set the right ambience with tunable warm to cool white light

Choose from a wide range of energizing cool white to soft warm white light, or simply select from the preset modes such as Focus and Relax to create the best ambience for your activities.

Application – Living Rooms, Corridors & Small Shops
